Building Digital Readiness Across the Program

Program-Based Coaching
Customized coaching to support needs assessment and action planning for digital literacy

Coaching topics can include:

- Technology integration practices for your staff's direct service delivery
- Program practices that support and increase digital literacy for students
- Program practices that support and increase digital literacy amongst staff
- Technology infrastructure needs of your program

At a minimum, your program will commit to:

- Sharing 1-3 digital literacy specific goals
- 2 live virtual meetings with the coach and 1 cohort meeting
- Outlining 1-4 action steps and planning implementation
- Completion of a follow-up survey
- Number of hours and level of effort depends on your staff goal(s) and capacity

Why participate in coaching?

- Responsive and tailored guidance
- Coaching meets you where you are
- Only commit to doing what is realistic and feasible
- Form action steps and plans with your colleagues

The cohort will have a kickoff meeting in December 2025.

First coaching calls will take place in late January 2026, and coaching will wrap up in April 2026.

Interested?

Fill out this [interest form](#) by November 28th, 2025. Anyone can complete an interest form. We will be in touch about the application. First come first served.
