

**Linda Neas****Center for New Americans****NRS Level 5-6 Adult Teacher**

What problem does Newsela help solve for you and/or your students?

Newsela has given me the opportunity to provide my students with authentic text on multiple topics that can be geared towards their learning level. My class has readers of various levels. The ability to adjust the text without losing the context of the article has been invaluable to me.

How does Newsela enhance your instruction?

Newsela enhances my instruction by giving me texts that cover many topics of interest to my students. I also appreciate the writing prompts to give students after they have read the article, as well as the comprehension questions that Newsela provides. Best of all, I can use the article to scaffold on something we have been studying to bring it into reality rather than just a concept that students are taught but can't relate to their lives.

What do your students think of Newsela?

My students appreciate the articles from Newsela because they do not infantilize their learning. As adults ages 18 to 60 plus, they want to be able to read adult texts. The articles I am able to download from Newsela gives me the opportunity to provide them with text that challenges but does not frustrate them. In addition, the topics are current with up-to-date information. In conclusion, my adult students look forward to these articles and feel accomplished after they have read them. For me, this is a win/win!
